Preventing UXO Risks for Children

Children should listen carefully to their parents and never play with UXO

UXO is extremely dangerous and can cause serious injury or death if handled

Some UXO may look like round metal objects

Children must never touch, move, or collect UXO for reporting purposes

Preventing UXO Risks for Adults

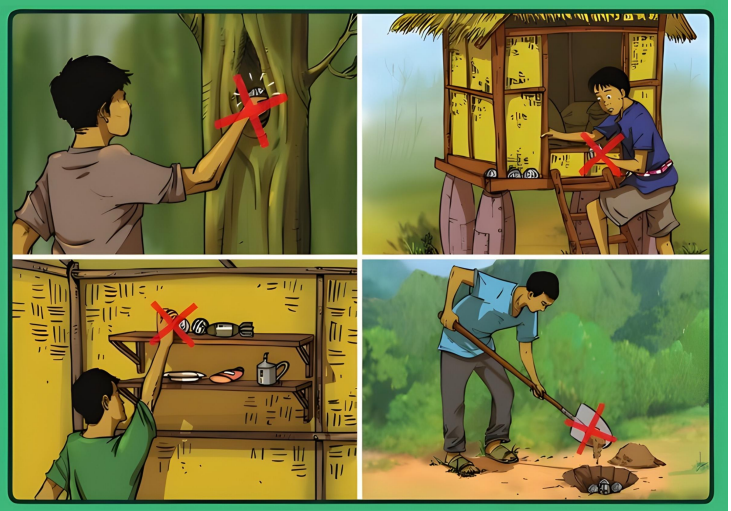

Dig a hole only for burning rubbish purpose, and do it carefully to avoid disturbing any UXO

Never use UXO for fishing

Before lighting a fire, carefully check the area. Loosen the soil to a depth of about 20 cm, then replace it before lighting the fire

Never leave UXO in the house, rice storage, hollow tree or bury under the ground

When burning or lighting a fire, keep a safe distance of at least 300 meters

UXO is highly dangerous, do not take any risks.
